**Summary of the Feedback Analysis by Alumni:**

Based on the feedback received from Alumni on the academic performance and ambience of the institute, following are the summary of observation/suggestions:

- Awareness on mental health. Maybe establish a department of psychology; I think it would be highly beneficial given that mental health has not received much attention despite the high suicide rate in Arunachal Pradesh.
- Career counselling: If a person chooses a major, they need to know where they might be able to find employment and what other options, they have than an MA or a B.Ed.
- It should be promoted or established to provide a more integrated learning environment. clubs for students interested in a variety of hobbies are organized as co-curricular activities. Along with ongoing participation in group-interactive workshops.
- Several students in their final year are concerned about what they will do or where they will work after graduation. Most students, in my opinion, only attempt an MA after graduating. They should be guided by their teachers, who should also inform them that there are other possibilities other than master’s degree. Teachers or mentors should help and support students who are confused about their career.
